(Fill in the blank with what you would do.)

A growing number of Americans are considering fixed indexed annuities for guaranteed income during retirement. When combined with an income rider, fixed indexed annuities can provide you with control, flexibility, and guarantees you don't often find in other financial vehicles.

As part of a balanced retirement plan, this valuable combination can help you:

- Convert a portion of your assets into a reliable source of retirement income;
- Set income withdrawal rates that are right for you; and
- Guarantee retirement income for a certain period of time, or for life!

Can a fixed indexed annuity with an income rider provide you with additional income for the things you want to do during retirement?
